PROFILE

Senior React / Next.js Developer with 5+ years of experience building logistics and operational web applications. Grew from Junior to Senior at Searates. Build production interfaces with Next.js App Router, SSR/SSG, Tailwind CSS, TypeScript, real-time workflows, and integrations. Strong in end-to-end feature delivery, frontend architecture, performance work, and mentoring.

EXPERIENCE

Searates | Senior Frontend Developer | 2021 – Present

Career progression: Junior (2021–2022) → Frontend Developer (late 2022–2024) → Senior (early 2025–Present)

- Independently delivered multiple product modules from implementation through release for logistics and operational workflows.
- Built interactive map-based features, data-rich dashboards, authentication flows, and third-party integrations.
- Developed and maintained production React and Next.js applications using App Router, SSR/SSG patterns, metadata, authentication flows, API integrations, and performance-focused UI architecture.
- Worked with REST and GraphQL APIs, WebSockets, and external services to support complex, real-time user workflows.
- Created and maintained internal frontend packages, reusable UI components, Tailwind CSS and SCSS styling patterns, state management, and API integration layers.
- Focused on application performance and stability during the most recent year, improving maintainability through TypeScript, testing, and component design.
- Used Python and Rust for automation, backend-related tasks, tooling, and integrations.
- Performed code reviews and mentored junior developers; collaborated with designers and analysts through project managers.

TECHNICAL SKILLS

Core Frontend: React, Next.js (App Router, SSR/SSG), Vue.js, TypeScript, JavaScript, HTML5, CSS3

Styling & UI: Tailwind CSS, SCSS, responsive and cross-browser development, reusable UI components

State & APIs: TanStack Query, Redux, Zustand, GraphQL, REST APIs, WebSockets, Mapbox

Quality & Delivery: Vite, Jest, Vitest, Playwright, Cypress, Docker, GitHub Actions

Additional Mobile Experience: React Native — 3 years commercial experience; iOS/Android, native APIs, Xcode, Android Studio, Gradle, Fastlane, App Store and Google Play releases

Automation & Tooling: Automated test and delivery workflows for frontend projects; Python scripts for API/data automation; Rust utilities for tooling and integrations

Engineering: Component architecture, API integration, performance optimization, code review, mentoring

EDUCATION & LANGUAGES

Junior Specialist in Information Technology — KPA and IT, ONAHT

Ukrainian — Native **English** — Comfortable reading technical documentation
